Coordinated by Small Area Land Trusts of Northwest CT, come hear Dr. Esty discuss the balance between the importance of land conservation in this current economic climate and its potential financial impact on towns by reducing land available for new businesses or housing and reducing overall property taxes. Professor Esty serves as Director of the Yale Center for Environmental Law and Policy and on the Advisory Board of the Yale Center for Business and Environment which he founded in 2006. He is the author or editor of ten books and dozens of articles on environmental protection, energy, and sustainability -- and their connections to policy, corporate strategy, competitiveness, trade, performance measurement, and economic success.
